TAN YI YA

Student

tanyiya04@gmail.com • 018-3823002 • Penang, Malaysia

Summary

A Computer Science student specializing in Data Engineering. Passionate about exploring emerging technologies, staying updated with industry trends, and continuously expanding technical expertise. Strong interpersonal skills with a keen interest in networking and collaborating with like-minded personnel.

Experience

Wonderful Minimarket — Bukit Mertajam, Penang

Cashier — 04/2021 - 06/2021

As a cashier, I handled cash, counted change and interacted with customers. This role had honed my communication skills and sense of managing money. This experience allowed me to interact with a variety of people from different backgrounds.

YaYa Education Centre — Kuala Lumpur, Malaysia (Remote Working)

Tutor — 06/2023 - 03/2024

During my first year at university, I worked as a part time tutor specializing in teaching Chinese to non-native speakers. It was a great experience that honed my skills in time management by working part time while studying full time.

Education

Jit Sin High School

SPM 2A+, 5A, 2A-, 1B+ — 2017 - 2021

Penang Matriculation College (KMPP)
